Shade Variation		Grout Joint Recommendation		NOTES	
V3 - V4 Substantial Variation		1/8" (3 mm)		Since variations are common in artistic ceramic tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. Please take care when grouting and protect surface from abrasion. <b>Installation constitutes acceptance.</b> We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).	
				MAINTENANCE
