

# Shinju Mirai

From natural ocean treasures to meditative and mesmerizing environments — the Shinju series expands with Shinju Mirai, a larger format ceramic with sophisticated textures. Each design influences the sense of scale, transforms light, and creates resonance. Mix textures for a modern effect or use singly for a refined mood.

Shade Variation	Grout Joint Recommendation		Since variations are common in artistic ceramic tile, we recommend final selection be made from an actual tile mock-up. To achieve optimal results in shading, layout and design, tile should be randomly selected from multiple boxes during installation. We recommend a minimum of 10% overage on all orders. Please take care when grouting and protect surface from abrasion. <b>Installation constitutes acceptance.</b> We advise retaining control samples to aid in color matching if additional material is required (match not guaranteed).		
V1 - V3 Moderate Variation	1/8" (3 mm)				
			MAINTENANCE		
			A routine cleaning of <b>Shinju Mirai</b> tile can be done with a light duty non-abrasive, close to neutral pH detergent cleaner. Products with low pH and low alkalinity used for cleaning can eventually dull the finishes of Cape Pearl, Olympia, and Pacific over time.		

\* Acceptable for limited and sporadic exposure near open flame or heat source, including fireplace wall/cooktop surround. **NOT** recommended for placement inside a firebox.

\*\* **Metallic Glazes:** Cape Pearl, Olympia, and Pacific are not recommended for installations in pools, spas, water features, steam showers, or exterior walls directly exposed to the elements. All other colors are acceptable.

▲ Paper and Tent are dimensional tiles and thus **NOT** recommended for use on floors. All other sizes are acceptable.
